- February 1
- December 8
- June 1

II. Webinars:

- December 11
- December 12

III. Research (STRIDE) Fellowship at the National Heart, Lung, and Blood Institute

Answer: While some medical schools will accept the AP credit on its own, many will strongly recommend or require that you supplement any AP with advanced courses. If Princeton granted AP credit based on your scores on your AP or IB exams, then we strongly recommend that you consult with BSE advisers to determine which of your courses build on those prerequisites.
